

DO YOU KNOW WE CAN

RECYCLE

YOUR OLD

OFFICE FURNITURE

re.think
sustainable solutions

We are now part of the re.think Furniture Recycling Scheme

We are pleased to announce our partnership with the re.think recycling scheme, which means we can now offer a full furniture recycling service for all of your old and unused office furniture. For any order of new furniture you place we will recycle any old or unwanted furniture, even if you didn't buy it from us.

Each piece of furniture is taken to the re.think depot and broken down into its core components. These are then separated into five groups; wood, plastics, metals, fabric and foam. Each group is then individually sorted into any sub groups to maximise their recyclability. Where possible, materials are then sent off to be processed back into raw materials, then re-used in the manufacturing of new products.

We can arrange the collection of any piece of office furniture taking the hassle out of having to dispose of old or broken pieces and ultimately helping you to reduce your carbon footprint.
